Family Update

Richard/Laurie were able to celebrate her birthday by riding on the Durango Silverton Narrow Gauge Train

while in Colorado.

Happy Birthday Laurie!

Making a Difference

Adam* is a young man who has been depressed and having marital problems. He contacted Family Essentials through the website.

Adam agreed to meet via Zoom.

Adam was able to share about his past and present situations which allowed Richard to give him some exercises to work on.

After a few days, Adam felt suicidal but was able to check himself into a mental care facility for observation and help. The team there helped him and provided him with some anti-depressant medication which has been so helpful.

Adam and his wife are talking more and enjoying their children. Adam shared that they are working on going back to church!

Adam is meeting with Richard weekly on Zoom and making progress with his past, present and his future. God is working in him and his family!
